(54) Title: IMPROVEMENTS IN OR RELATING TO A SAFETY ARRANGEMENT FOR A VEHICLE

(57) **Abstract:** A vehicle safety arrangement, the arrangement comprising: a sensor unit (7) comprising at least one sensor (8, 9) responsive to acceleration; an actuator (13) for activating a safety device, the actuator being located remotely from the sensor unit; and a control unit (2) located remotely from the sensor unit and from the actuator, the control unit having no sensors responsive to acceleration and being operable to receive information from the sensor unit and to transmit an actuating command to the actuator to activate the safety device.
